

EVENT SPECIALIST

Full and part time positions available, seasonal
Starting pay: \$20/hour with end-of-season bonus

ABOUT US

At Bend Party Rentals, everything's a party.

This refers to what we do – from baby showers to celebrations of life, we help our clients celebrate each party along the way. Weddings, birthdays, anniversaries, holiday dinners, estate sales, business meetings, fundraisers, graduations, corporate events...everything's a party.

And it's how we do it – we enjoy helping our clients start their celebration. For us, the party starts when we arrive. We celebrate along the way during the busy season and enjoy our downtime when things slow down.

From tables and chairs, to tents and dance floors, we provide event rental equipment to the Central Oregon region. We've been doing this since 2010 and are well-positioned in the Central Oregon event industry. We are looking for teammates who want to sustainably grow with us for many more parties to come.

ABOUT YOU

You enjoy working outdoors in a variety of settings. Physical work doesn't scare you and you're able to carry tent pipes, haul dance floors, climb ladders, and stack chairs. Ideally, you've been in the event industry and know how to set up commercial event tents, but you're a quick learner if that all sounds new to you. You're dependable and committed to the team you work with. Getting paid to get the job done correctly and quickly, so you can enjoy your own time after work, sounds better than riding the clock.

WHAT YOU'LL DO

You'll work with the Events Director and Events Logistics Manager to fulfill client orders by loading rental items from storage and delivering them to event venues. You'll carry folding tables, haul stacks of chairs with hand-trucks, install event tents, set up stages and dance floors, hang lights and décor...just to name a few. When the party's over, you and the team will take it all down, return it to the warehouse, unload it, clean it, and store it for the next party. You'll help keep the warehouse in good shape and assist with maintenance and repairs of rental equipment.

WHEN YOU'LL DO IT

The nice thing about our role is, we set up the party and we take down the party. But we don't have to work the party. A typical work week begins on Thursday with deliveries through Saturday morning. Then we start again on Sunday to pick up rentals and wrap up on Monday. Tuesday and Wednesday are

typical days off for the delivery team. We often get our day started early, whether it's to beat the heat in the summer, or to take down a party before the next one starts at a public venue. We occasionally need to be available in the evenings when venues require after-hours pickups. Our peak season springs to life in April and slows down after October.
